INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the City Council
City of Aumsville
595 Main Street
Aumsville, Oregon 97325

Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Aumsville, Oregon, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in the notes to the financial statements; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Aumsville, as of June 30, 2016, and the respective changes in modified cash basis financial position thereof for the year then ended in accordance with the modified cash basis of accounting described in the notes to the financial statements.

Basis of Accounting

We draw attention to the notes of the financial statements, which describe the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Report on Supplemental and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The supplemental information and management's discussion and analysis, which are the responsibility of management, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information as listed in the table of contents is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole on the basis of accounting described in notes to the financial statements.

Management's discussion and analysis has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Report on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated December 6, 2016, on our consideration of the City's compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

FYE 2016 MANAGEMENT'S DISCUSSION AND ANALYSIS

This discussion and analysis presents the highlights of the financial position of the City of Aumsville (City). The analysis focuses on the financial activities of the City for the fiscal year ending (FYE) June 30, 2016.

Financial Highlights

	June 30,		change
	2016	2015	
Net position	\$ 8,908,996	\$ 8,838,678	\$ 70,318
Change in net position	70,318	198,294	(127,976)
Governmental net position	5,214,474	5,129,804	84,670
Proprietary net position	3,694,522	3,708,874	(14,352)
Change in governmental net position	84,670	146,187	(61,517)
Change in proprietary net position	(14,352)	52,107	(66,459)

OVERVIEW OF THE FINANCIAL STATEMENTS

The intent of this overview and analysis is to explain the changes in the financial position of the City of Aumsville and the reasons they occurred. The City's detailed information is provided in the *audited financial statements* provided by an independent auditor similar to a private-sector business.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Aumsville's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements include:

The Statement of Net Position (modified cash basis). The *statement of net position* presents information on all of the assets and liabilities of the City as of the date on the statement. Net position is what remains after the liabilities have been paid off or otherwise satisfied. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities (modified cash basis). The *statement of activities* presents information showing how the net position of the City changed over the most recent fiscal year by tracking revenues, expenses and other transactions that increase or reduce net position.

The City reports on the modified cash basis of accounting.

Fund financial statements. The *fund financial statements* provide more detailed information about the City's funds, focusing on its most significant or "major" funds – not the City of Aumsville as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Aumsville, like state and other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. The *governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Proprietary funds. The City of Aumsville charges customers for the services it provides – whether to outside users or to other units of the City and these services are generally reported in proprietary funds. All of the City's proprietary funds are enterprise funds. Enterprise funds are used to report the same functions as business-type activities in the governmental-wide financial statements.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *supplemental information* including the combining statements for the non-major funds and the budgetary comparison schedules.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the City's financial position. In the case of Aumsville, assets exceeded liabilities by \$8,908,996 at June 30, 2016.

Portion due within one year	31,564	84,335	115,899	16,902	83,589	100,491
Portion due in more than one year	77,568	1,929,599	2,007,167	135,431	2,025,354	2,160,785
Total liabilities	124,787	2,071,894	2,196,681	155,749	2,169,073	2,324,822
Net position:						
Net investment in capital assets	4,382,296	2,766,113	7,148,409	4,228,798	2,810,659	7,039,457
Restricted	159,847	311,327	471,174	318,859	292,033	610,892
Unrestricted	672,331	617,082	1,289,413	582,147	606,182	1,188,329
Total Net Position	\$ 5,214,474	\$ 3,694,522	\$ 8,908,996	\$ 5,129,804	\$ 3,708,874	\$ 8,838,678

The *Net Position – Restricted* are funds that are legally restricted for capital projects and other specific purposes.

The *Net Position - Unrestricted* may be used to meet the City's ongoing obligations to citizens and creditors.

The *Net Investment in Capital Assets* represents the cost of capital assets less accumulated depreciation and less any debt incurred for the acquisition of capital assets.

CITY OF AUMSVILLE CHANGES IN NET POSITION

The City's total revenues were approximately \$2.8 million, of this an approximate 76% were from charges for services, fines, fees, permits, licenses and other sources. The remaining 24% came from property taxes.

The total cost of all programs and services was approximately \$2.8 million. Costs for utilities were approximately \$1.1 million (47%) and the remainder was for general government, public safety, streets, highways and other governmental activities.

GOVERNMENTAL ACTIVITIES

The cost for all *governmental* activities was \$1,478,645 for the year ended June 30, 2016. The amount that our taxpayers paid was only \$667,892 through property taxes. Those who directly benefited from the programs (fines, fees and charges for services) paid \$93,825 or 6%.

Net position of the governmental-type activities increased by \$84,670 during the fiscal year ended June 30, 2016.

BUSINESS-TYPE ACTIVITIES

The cost for all *business-type* activities totaled \$1,292,708 for the year. The City utility costs are paid by utility service fees, system development charges, and other utility related income. The City's net position decreased by \$14,352 from business-type activities.

FINANCIAL ANALYSIS OF THE CITY OF AUMSVILLE FUNDS

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The General Fund is the chief operating fund of the City. Proprietary funds are the City's business-type enterprise funds, such as water and sewer.

The City's governmental funds reported combined ending fund balances of \$832,178 at the end of the current fiscal year.

Major Governmental Funds:

General and Police Funds. The General and Police Funds are the primary operating funds of the City. The combined fund balances were \$297,775 as of June 30, 2016. The combined fund balances increased \$16,292 during the current fiscal year. As a measure of the liquidity, it may be useful to compare total fund balances to total fund expenditures. Fund balances represent 28% of total expenditures.

Street Fund. The Street Fund accounts for street maintenance and improvements. The fund balance decreased by \$131,764 during the year due to the completion of street projects.

Park SDC Fund – The fund balance decreased by \$37,268 due mainly to expenditures in excess of revenues and transfers out.

Public Works Equipment Fund – The fund balance increased by \$19,311 during the year. The increase was due mainly to transfers in.

The City's enterprise funds reported \$928,409 combined ending fund balance at year end.

Major Proprietary Funds:

Water – The Water fund revenues are from charges for services and expenditures are for personal services, materials and services, and capital outlay. The fund's net position decreased \$12,835 during the year mostly due to transfers out and debt payments.

Sewer – The Sewer fund revenues are from charges for services and expenditures are for personal services, materials and services, and capital outlay. The fund's net position decreased by \$18,447 during the year mostly due to transfers out and debt payments.

Water improvement – The Water improvement fund revenues are from transfers in from the Water fund and expenditures are for capital outlay and materials and services. The fund's net position increased by \$59,535 during the year due to transfers in.

Sewer improvement - The Sewer improvement fund revenues are from transfers in from the Sewer fund and expenditures are for capital outlay and materials and services. The fund's net position decreased by \$17,353 during the year due to increased operating expenses and no revenue.

Sewer SDC - The Sewer SDC fund revenues are from system development charges, and expenditures are for capital outlay and materials and services. The fund's net position increased by \$11,132 during the year due to minimal expenditures.

BUDGETARY HIGHLIGHTS

There were no changes made to the adopted budget for the General Fund during the year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets The City's capital assets for governmental and business-type activities are shown below. Capital assets include land, buildings, distribution systems (water and sewer), machinery and equipment, and infrastructure. More detailed information on the City's capital assets can be found in the notes to the basic financial statements.

Capital Assets As of June 30, 2016 and 2015

	Governmental Activities		Business-type Activities		Totals	
	2016	2015	2016	2015	2016	2015

FUTURE ECONOMIC FACTORS FOR THE CITY OF AUMSVILLE

The City's cash reserves for vehicles, public works equipment, and major office equipment will provide funding for replacement, major repairs and new acquisitions, as they become necessary.

Economic Factors and Fiscal Year 2016-17 Budgets and Rates

During the preparation of the budget for the ensuing fiscal year, the long-term impacts of the local economy were examined in conjunction with business decisions made by the City. The following are the major assumptions used in developing the FYE 2017 budget:

- The City's tax rate remains \$3.6327 per \$1,000 of property valuation, which is the City's permanent levy rate.
- General fund revenues will continue to come in at or better than the financial forecast.
- Interest rates on investments may only average 0.45%.
- No increase in employee retirement contribution rates in FY 2016-17.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

It is my desire to provide you with factual, succinct, information on the genuine financial stability of Aumsville in this financial analysis. It was designed to provide City of Aumsville citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this analysis or need more detailed financial information, please contact Ronald Harding, City Administrator at (503) 749-2030 ext: 301, 595 Main Street, Aumsville, Oregon, 97325.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance (Modified Cash Basis) to the Statement of Activities (Modified Cash Basis)

Net change in fund balance

Capital outlays are reported as expenditures in governmental funds. However, the Statement of Activities allocates the cost of capital outlay over the estimated useful life as depreciation expense:

- Capital outlay

- Depreciation expense

- Net book value of capital asset disposals

Debt principal paid is reported as an expenditure in governmental funds. However, it does not affect the Statement of Activities, but is reported as a decrease in noncurrent liabilities on the Statement of Net Position

Debt incurred is not reported as revenue in the governmental funds, but is reported as an increase in noncurrent liabilities on the Statement of Net position

Change in net position of governmental activities

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Aumsville, Oregon is governed by an elected mayor and six council members who comprise the City Council. The City Council exercises supervisory responsibilities over the City operations, but day-to-day management control is the responsibility of a city manager. All significant activities and organizations for which the City is financially accountable are included in the financial statements.

There are certain governmental agencies and various service districts which provide services within the City. These agencies have independently elected governing boards and the City is not financially accountable for these organizations. Therefore, financial information for these agencies is not included in the accompanying basic financial statements.

As discussed further under *Measurement Focus and Basis of Accounting*, these financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP) established by the Governmental Accounting Standards Board (GASB). These modified cash basis financial statements generally meet the presentation and disclosure requirements applicable to GAAP, in substance, but are limited to the elements presented in the financial statements and the constraints of the measurement and recognition criteria of the modified cash basis of accounting.

Basic Financial Statements

Basic financial statements are presented at both the government-wide and fund financial level. Both levels of statements categorize primary activities as either governmental or business-type. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities which rely, to a significant extent, on fees and charges for support.

Government-wide financial statements display information about the reporting government as a whole. For the most part, the effect of interfund activity has been removed from these statements. These statements focus on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. These aggregated statements consist of the Statement of Net Position (Modified Cash Basis) and the Statement of Activities (Modified Cash Basis).

The Statement of Net Position (Modified Cash Basis) presents all the assets and liabilities of the City. Net position, representing assets less liabilities, is shown in three components. Investment in capital assets, less related outstanding debt used to acquire them, restricted for special purposes, amounts which must be spent in accordance with legal restrictions, and unrestricted, the amount available for ongoing City activities.

The Statement of Activities (Modified Cash Basis) demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund financial statements display information at the individual fund level. Each fund is considered to be a separate accounting entity. Funds are classified and summarized as governmental, proprietary or fiduciary. Currently, the City has governmental and proprietary type funds. Major individual governmental funds, and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are consolidated into a single column within each fund type in the financial section of the basic financial statements and are detailed in the other supplementary information.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation

The financial transactions of the City are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

Government accounting standards set forth minimum criteria (percentage of the assets liabilities, revenues or expenditures/expenses of either fund category or the government and enterprise combined) for the determination of major funds.

The City reports the following major governmental funds:

General Fund - This fund accounts for the financial operations of the City not accounted for in any other fund. Principal sources of revenues are property taxes, licenses and permits, franchise fees and State shared revenues. Primary expenditures are for general administration and municipal court operations of the City.

Police Fund - Accounts for the operation of the City's police department. This fund is combined with the general fund for reporting purposes.

Street Fund - Accounts for revenues and expenditures of State gas tax and other revenues related to streets.

Park System Development Charge (SDC) Fund - Accounts for the development and improvements of the City's parks.

Public Works Equipment Fund - Money set aside for purchase of public works related equipment.

The City reports the following nonmajor governmental funds:

Park Fund - Accounts for monies earmarked for operation of the City's parks.

Bikeway/Pedestrian Fund - Accounts for monies earmarked for use on the City's bikeways and sidewalks.

Investment in Aumsville Families and Children Fund – Accounts for monies earmarked for activities which promote family and community enhancement.

Transportation System SDC Fund - Money set aside for the development and improvements of the City's streets.

Vehicle Replacement Fund - Money set aside for purchase of police and public works vehicles.

Major Office Equipment Fund - Money set aside for the purchase of major office equipment.

City Reserve Fund - Money set aside for emergencies or unexpected City expenses and police reserves.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

The City reports the following proprietary funds as major funds. These funds are used to account for the acquisition, operation, and maintenance of the sewer and water systems. These funds are entirely or predominantly self-supported through user charges to customers.

Water Fund - The Water Fund is used to account for the operation of the City's water department. Primary revenues are sales of water to users and related fees and interest on invested funds. Expenses are for operating costs.

Sewer Fund - This fund is used to account for the operation of the City's sewer utility. Primary revenues are charges for sewer services and interest on invested funds. Expenses are for operating costs.

Water Improvements Fund - Revenues are transfers in, which are primarily for major maintenance and repairs, and for water system improvements.

Sewer Improvement Fund - Revenues consists of interest on investments and transfers from the Sewer Fund. Expenses are for maintenance and repair of and improvements to the sewer system.

Sewer System Development Charge (SDC) Fund - Revenues are primarily system development charges. Expenses are for sewer system development.

The City reports the following nonmajor proprietary fund:

Water System Development Charge (SDC) Fund - Revenues consists of systems developments charges. Expenses are for the development of the water system.

Fund Balance

In governmental funds, the City's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications – committed and then assigned fund balances before using unassigned fund balances.

Fund balance is reported as nonspendable when the resources cannot be spent because they are either in a nonspendable form or legally or contractually required to be maintained intact. Resources in nonspendable form include inventories, prepaids and deposits, and assets held for resale.

Fund balance is reported as restricted when the constraints placed on the use of resources are either: (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Fund balance is reported as committed when the City Council takes formal action that places specific constraints on how the resources may be used. The City Council can modify or rescind the commitment at any time through taking a similar formal action.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance (Continued)

Resources that are constrained by the City's intent to use them for a specific purpose, but are neither restricted nor committed, are reported as assigned fund balance. Intent is expressed when the City Council approves which resources should be "reserved" during the adoption of the annual budget. The City Administrator uses that information to determine whether those resources should be classified as assigned or unassigned for presentation in the City's Annual Financial Report.

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been restricted, committed, or assigned within the General Fund. This classification is also used to report any negative fund balance amounts in other governmental funds.

Definitions of Governmental Fund Types

The General Fund is used to account for all financial resources not accounted for in another fund.

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term "proceeds of specific revenues sources" means that the revenue sources for the fund must be from restricted or committed sources, specifically that a substantial portion of the revenue must be from these sources and be expended in accordance with those requirements. Budgetary Special Revenue Funds whose primary source of funding is transfers from the General Fund must be reported as part of the General Fund. Therefore, in the Governmental Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances, the Police Fund has been combined with the General Fund.

Capital Projects Funds are utilized to account for financial resources to be used for the acquisition or construction of capital equipment and facilities.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe what transactions or events are recorded within the various financial statements. Basis of accounting refers to when and how transactions or events are recorded, regardless of the measurement focus applied.

In the government-wide Statement of Net Position (Modified Cash Basis) and Statement of Activities (Modified Cash Basis), both governmental and business-type activities are presented using the economic resource measurement focus, within the limitations of the modified cash basis of accounting, as defined below.

In the fund financial statements, the current financial resources measurement focus or the economic resources measurement focus is applied to the modified cash basis of accounting, is used as appropriate:

- a. All governmental funds utilize a current financial resources measurement focus within the limitations of the modified cash basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting (Continued)

- b. The proprietary funds utilize an economic resource measurement focus within the limitations of the modified cash basis of accounting. The accounting objectives of this measurement focus are the determination of operating income, change in net position (or cost recovery), net financial position, and cash flows. All assets, deferred outflows, liabilities, and deferred inflows (whether current or noncurrent or financial or nonfinancial) associated with their activities are generally reported within the limitations of the modified cash basis of accounting.

The financial statements are presented on a modified cash basis of accounting, which is a basis of accounting other than GAAP as established by GASB. This basis of accounting involves modifications to the cash basis of accounting to report in the statements of net position or balance sheets cash transactions or events that provide a benefit or result in an obligation that covers a period greater than the period in which the cash transaction or event occurred. Such reported balances include:

1. Interfund receivables and payables that are temporary borrowing and result from transactions involving cash or cash equivalents are recognized.
2. Assets that normally convert to cash or cash equivalents (e.g., certificates of deposit, external cash pools, and marketable investments) that arise from transactions and events involving cash or cash equivalents are recognized.
3. Liabilities for cash (or cash equivalents) held on behalf of others or held in escrow are recognized.
4. Assets and related debt are recorded on the government-wide financial statements.

The modified cash basis of accounting differs from GAAP primarily because certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected and other accrued revenue and receivables) and certain liabilities and their related expenses or expenditures (such as accounts payable and expenses for goods and services received but not yet paid and other accrued expenses and liabilities) are not recorded in these financial statements. In addition, other economic assets, deferred outflows, liabilities, and deferred inflows that do not arise from a cash transaction or event are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value.

If the City utilized the basis of accounting recognized as generally accepted in the United States of America, the fund financial statements for the governmental funds would use the modified accrual basis of accounting, and the fund financial statements for the enterprise funds would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

The City's policy, although not in accordance with accounting principles generally accepted in the United States of America, is acceptable under Oregon Law (ORS 294.333), which leaves the selection of the method of accounting to the discretion of the municipal corporation.

Enterprise funds distinguish between operating revenues and expenses and nonoperating items. Operating revenues and expenses result from providing services to customers in connection with ongoing utility operations. The principal operating revenues are charges to customers for service. Operating expenses include payroll and related costs, and materials and supplies. All revenues not considered operating are reported as nonoperating items.

When expenditures are paid for purposes in which both net position - restricted and net position - unrestricted are available, the City deems net position - restricted to be spent first.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

The City maintains cash and cash equivalents in a common pool that is available for use by all funds. Each fund type's portion of this pool is displayed as cash and cash equivalents. The City considers cash on hand, demand deposits and savings accounts, and short-term investments with an original maturity of three months or less from the date of acquisition to be cash and cash equivalents.

Oregon Revised Statutes authorize the City to invest in certificates of deposit, savings accounts, bank repurchase agreements, bankers' acceptances, general obligations of U.S. Government and its agencies, certain obligations of Oregon municipalities and the State Treasurer's Local Government Investment Pool, among others.

For the purpose of financial reporting, cash and cash equivalents includes all demand and savings accounts and certificates of deposit or short-term investments with an original maturity of three months or less.

Investments in the Local Governmental Investment Pool are stated at cost, which approximates fair value.

Property Taxes

Property taxes are levied by the County Assessor and collected by the County Tax Collector. The taxes are levied and become a lien as of July 1. They may be paid in three installments payable in equal payments due November 15, February 15, and May 15. The City's property tax collection records show that most of the property taxes due are collected during the year of levy and delinquent taxes are collected in the next few years.

Capital Assets

Capital assets (items costing more than \$2,500 and lasting more than one year) are reported in the applicable governmental or business-type activities in the notes to the financial statements. In the fund statements, capital assets are charged as expenditures as purchased. Capital assets are recorded at cost or estimated historical cost where records are available. Donated assets are not recorded. Maintenance and repairs are expensed as incurred. Replacements which improve or extend the lives of property are capitalized.

Capital assets are depreciated unless they are inexhaustible in nature (e.g., land and right-of-ways). Depreciation is an accounting process to allocate the cost of capital assets in a systematic and rational manner to those periods expected to benefit from the use of capital assets. Depreciation is not intended to represent an estimate in the decline of fair market value, nor are capital assets, net of accumulated depreciation, intended to represent an estimate of the current condition of the assets, or the maintenance requirements needed to maintain the assets at their current level of condition.

Depreciation is computed over the estimated useful lives of the capital assets. Depreciation is calculated on the straight-line basis. The estimated useful lives of the various categories of assets are as follows:

Buildings and improvements	30 - 40 years
Water and Sewer Systems	20 - 50 years
Infrastructure	20 - 50 years
Equipment	7 - 30 years

Upon disposal of capital assets, cost and accumulated depreciation are removed from the accounts.

CITY OF AUMSVILLE, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2015

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-Term Debt

Long-term debt is presented only in the government-wide financial statements and in the notes to the financial statements. Payments of principal and interest are recorded as expenditures/expenses when paid.

Accrued Compensated Absences

Accumulated unpaid vacation and comp time is recorded as an expenditure/expense when paid.

Budgets and Budgetary Accounting

The City adopts the budget on an object basis (personal services, materials and services, capital outlay and debt service), therefore, cash expenditures of a fund may not legally exceed that fund's appropriations for an object. The City Council may amend the budget to expend unforeseen revenues by supplemental appropriations. All supplemental appropriations are included in the budget comparison statements. Appropriations lapse at year-end and may not be carried over. The City does not use encumbrance accounting.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect reporting amounts of certain assets, liabilities, revenues and expenditures as of and for the year ended June 30, 2016. Actual results may differ from such estimates.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents are comprised of the following at June 30, 2015:

Cash	
Cash on hand	\$ 1,540
Demand deposits	14,660
Time deposits	743,180
Investments	
Local Government Investment Pool	1,074,822
	<hr/>
	\$ 1,834,202
	<hr/> <hr/>

Deposits

The book balance of the City's bank deposits was \$757,840 and the bank balance was \$814,583 at year end. The difference is due to transactions in process. Bank deposits are secured to legal limits by federal deposit insurance. The remaining amount is secured in accordance with ORS 295 under a collateral program administered by the Oregon State Treasurer.

CITY OF AUMSVILLE, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2015

CASH AND CASH EQUIVALENTS (Continued)

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the City's deposits may not be returned. The Federal Depository Insurance Corporation (FDIC) provides insurance for the City's deposits with financial institutions for up to \$250,000 each for the aggregate of all demand deposits and the aggregate of all time deposit and savings accounts at each financial institution. Deposits in excess of FDIC coverage are with institutions participating in the Oregon Public Funds Collateralization Program (PFCP). The PFCP is a shared liability structure for participating bank depositories, better protecting public funds though still not guaranteeing that all funds are 100% protected. Barring any exceptions, a bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of their quarter-end public fund deposits if they are adequately capitalized or 110% of their quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of the State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public funds bank depositories is available to repay deposits of public funds of government entities. As of June 30, 2016, all of the City's bank balances were covered by FDIC insurance.

Local Government Investment Pool

The State Treasurer of the State of Oregon maintains the Oregon Short-term Fund, of which the Local Government Investment Pool is part. Participation by local governments is voluntary. The State of Oregon investment policies are governed by statute and the Oregon Investment Council. In accordance with Oregon Statutes, the investment funds are invested as a prudent investor would do, exercising reasonable care, skill and caution. The Oregon Short-term Fund is the LGIP for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). At June 30, 2016, the fair value of the position in the Oregon State Treasurer's Short-term Investment Pool was approximately equal to the value of the pool shares. The investment in the Oregon Short-term Fund is not rated for credit quality. Separate financial statements for the Oregon Short-term Fund are available from the Oregon State Treasurer.

Interest Rate Risk

In accordance with its investment policy, the City manages its exposure to declines in fair value of its investments by limiting the weighted average maturity of its investments through use of the Local Government Investment Pool.

Custodial Risk – Local Governmental Investment Pool

For the LGIP, this is the risk that, in the event of a failure of the counterparty, the City will not be able to recover the value of its investments or collateralized securities that are in the possession of an outside party. The City's investment policy limits the types of investments that may be held and does not allow securities to be held by the counterparty.

The LGIP is administered by the Oregon State Treasury with the advice of other state agencies and is not registered with the U.S. Securities and Exchange Commission. The LGIP is an open-ended no-load diversified portfolio offered to any agency, political subdivision, or public corporation of the state that by law is made the custodian of, or has control of any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon Legislature established the Oregon Short-term Fund

CITY OF AUMSVILLE, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2016

CASH AND CASH EQUIVALENTS (Continued)

Custodial Risk – Local Governmental Investment Pool (Continued)

Board, which has established diversification percentages and specifies the types and maturities of the investments. The purpose of the Board is to advise the Oregon State Treasury in the management and investment of the LGIP. These investments within the LGIP must be invested and managed as a prudent investor would, exercising reasonable care, skill and caution. Professional standards indicate that the investments in external investment pools are not subject to custodial risk because they are not evidenced by securities that exist in physical or book entry form. Nevertheless, management does not believe that there is any substantial custodial risk related to investments in the LGIP.

CAPITAL ASSETS

The summary of capital assets for governmental activities for the year ended June 30, 2016 is as follows:

	Balances July 1, 2015	Additions	Retirements	Balances June 30, 2016

PENSION PLAN

The Oregon Public Employees Retirement System (OPERS) is a cost-sharing multiple employer defined benefit plan. Qualified employees of the City are provided with pensions through OPERS. Employees hired before August 29, 2003 belong to the Tier One/Tier Two Retirement Benefit Program (established pursuant to ORS Chapter 238), while employees hired on or after August 29, 2003 belong to the OPSRP Pension Program (established pursuant to ORS Chapter 238A). OPERS issues a publicly available financial report that can be obtained at

http://www.oregon.gov/pers/pages/section/financial_reports/financials.aspx.

Benefits provided under ORS Chapter 238 – Tier One/ Tier Two

Pension Benefits: The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, 1.67

CITY OF AUMSVILLE, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2016

PENSION PLAN (Continued)

percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

Death Benefits: Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met: the member was employed by a PERS employer at the time of death; the member died within 120 days after termination of PERS-covered employment; the member died as a result of injury sustained while employed in a PERS-covered job, or; the member was on an official leave of absence from a PERS-covered job at the time of death.

Disability Benefits: A member with 10 or more years of creditable service who becomes disabled from other than duty connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 when determining the monthly benefit.

Benefit Changes After Retirement: Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments. Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2015 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

Benefits provided under Chapter 238A - OPSRP Pension Program (OPSRP DB)

This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age: General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

Police and Fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General Service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

CITY OF AUMSVILLE, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2016

PENSION PLAN (Continued)

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits: Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

Disability Benefits: A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

Benefit Changes After Retirement: Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. Under current law, the cap on the COLA in fiscal year 2016 and beyond will vary based on 1.25 percent on the first \$60,000 of annual benefit and 0.15 percent on annual benefits above \$60,000.

Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans.

Employer contribution rates during the period were based on the December 31, 2013 actuarial valuation. The City's contribution rates in effect for the fiscal year ended June 30, 2016 were 9.67 percent for Tier One/Two members, 3.30 percent for OPSRP general service members, and 7.41 percent for OPSRP uniformed members. The City's contributions for the year ended June 30, 2016 were \$112,035, excluding amounts to fund employer specific liabilities.

Members of PERS are required to contribute 6% of their salary covered under the plan, which is invested in the OPSRP Individual Account Program. The total contributed by the City on behalf of employees for the year ended December 31, 2015 was \$112,035.

Actuarial Methods and Assumptions:

The employer contribution rates effective July 1, 2015, through June 30, 2017, were set by OPERS using the projected unit credit actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years. For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

CITY OF AUMSVILLE, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2016

PENSION PLAN (Continued)

Actuarial Methods and Assumptions: (Continued)

Valuation Date	December 31, 2013 rolled forward to June 30, 2015
Experience Study Report	2014, published September 2015
Actuarial cost method	Entry Age Normal
Amortization method	Amortized as a level percentage of payroll as layered amortization bases over a closed period; Tier One/Tier Two UAL is amortized over 20 years and OPSRP pension UAL is amortized over 16 years.
Asset valuation method	Market value of assets
Actuarial assumptions:	
Inflation rate	2.75 percent
Investment rate of return	7.75 percent
Projected salary increases	3.75 percent overall payroll growth
Cost of living adjustments (COLA)	Blend of 2.00% COLA and graded COLA (1.25%/0.15%) in accordance with <i>Moro</i> decision; blend based on service
Mortality	Healthy retirees and beneficiaries: RP-2000 Sex-distinct, generational per Scale AA, with collar adjustments and set-backs as described in the valuation. Active members: Mortality rates are a percentage of healthy retiree rates that vary by group, as described in the valuation. Disabled retirees: Mortality rates are a percentage (65% for males, 90% for females) of the RP-2000 static combined disabled mortality sex-distinct table.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2014 Experience Study which reviewed experience for the four-year period ending on December 31, 2014.

Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset

CITY OF AUMSVILLE, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS (Continued)
YEAR ENDED JUNE 30, 2016

PENSION PLAN (Continued)

Long-Term Expected Rate of Return (Continued)

allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

<u>Asset Class</u>	<u>Target</u>	<u>Compound Annual Return (Geometric)</u>
Core Fixed Income	8.00 %	4.10 %
Short-Term Bonds	8.00	3.65
Bank/Leveraged Loans	3.00	5.69
High Yield Bonds	1.00	6.67
Large/Mid Cap US Equities	15.75	7.96
Small Cap US Equities	1.31	8.93
Micro Cap US Equities	1.31	9.37
Developed Foreign Equities	13.13	8.34
Emerging Market Equities	4.13	10.56
Non-US Small Cap Equities	1.88	9.01
Private Equity	17.50	11.60
Real Estate (Property)	10.00	6.48
Real Estate (REITS)	2.50	8.74
Hedge Fund of Funds - Diversified	2.50	4.94
Hedge Fund - Event-driven	0.63	7.07
Timber	1.88	6.60
Farmland	1.88	7.11
Infrastructure	3.75	8.31
Commodities	1.88	6.07
Assumed Inflation - Mean		2.50

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.75, as well as what City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

	<u>1% Decrease (6.75%)</u>	<u>Discount Rate (7.75%)</u>	<u>1% Increase (8.75%)</u>
Proportionate share of the net pension liability	\$ 703,987	\$ 291,691	\$ (55,765)

Transportation SDC	-	66
Vehicle Replacement	17,500	-
Major Office Equipment	26,856	-
City Reserve	13,000	-
Parks SDC	-	21,603
Water	-	102,599
Sewer	-	80,102
Water SDC	-	165
Water Improvement	73,000	-
Sewer SDC	-	165
Sewer Improvement	50,000	-
	<u>\$ 975,746</u>	<u>\$ 975,746</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move revenues restricted to debt service from the funds collecting the revenues to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

COMMITMENTS AND CONTINGENCIES

The City purchases commercial insurance to cover all commonly insurable risks, which includes property damage, liability and employee bonds. Most policies carry a small deductible amount. No insurance claims settled in each of the prior three years have exceeded policy coverage.

SUBSEQUENT EVENTS

Management has evaluated subsequent events through December 6, 2016, the date on which the financial statements were available to be issued. Management is not aware of any subsequent events that require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Mayor and City Council
City of Aumsville
595 Main Street
Aumsville, Oregon 97325

We have audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the City of Aumsville, Oregon as of and for the year ended June 30, 2016, and have issued our report thereon dated December 6, 2016.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295).**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Highway revenues used for public highways, roads, and streets.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **Accountability for collecting or receiving money by elected officials - no money was collected or received by elected officials.**

In connection with our testing nothing came to our attention that caused us to believe the City was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations except the Oregon Business Development Department (formerly OECDD) requires the City to prepare financial statements in accordance with generally accepted accounting principles. The City was not in compliance with this requirement.

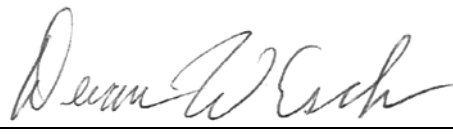

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Restriction on Use

This report is intended solely for the information and use of the council members and management of the City of Aumsville, Oregon and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.
